

**AMERICAN  
FRIENDS OF  
KURDISTAN**

# AMERICAN-KURDISH RELATIONS

## FRIENDSHIP BETWEEN TWO NATIONS

### Strengthen and secure ties

The Kurds share American values that we in the U.S. cherish. We must highlight and solidify our bond and build on the already established friendship between our two peoples.

## MILITARY PARTNERSHIP

### Establish a lasting military alliance

The Kurdish-U.S. military partnership began through intelligence sharing, this must continue and expand while the U.S. works to establish a battle hardened pro-American Kurdish force to prevent future threats on both soils.

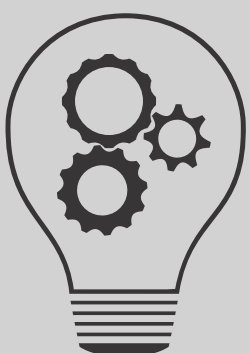

## GROUNDING AMERICAN POLICY

### Solidify partnership through legislation

A key component missing from the American-Kurdish alliance is a grounded policy between the United States and Kurdistan. Legislation that serves U.S. and Kurdistan will allow for a more confident alliance.

## OTHER OPPORTUNITIES

### Explore all avenues

Kurdistan has the potential to become a strategic economic partner, exploring paths beyond military and legislation through technology, agriculture, tourism, and energy will benefit both nations.
